

GT2 CORVETTE

World Class

Completion

The GT2 Corvette comes completely assembled, aligned, leak checked, and ready to shake down from Riley Technologies. The customer supplies the driver comfort systems and radio. An engineer and assembly technician from Riley Technologies will attend the first test.

Standard Features

- Adjustable rear wing to balance the downforce of the nose
- Maximum use of nutplates for ease of maintenance and fast changes
- Rain system including electric motor, wiper, and windscreen defroster
- Stainless Steel exhaust system with mufflers
- Electric drink bottle system with quick disconnects
- A/C Climate Control
